

Are you feeling overwhelmed or concerned about challenging behaviors?

Much can be learned in the first 30 days to prevent challenging behaviors from becoming persistent or inappropriately accommodated.

# The First 30 Days: Troubleshooting & Overcoming Challenging Behaviors

A *virtual workshop* for educators and school personnel

**This workshop will focus on tools, strategies, and interventions that:**

- Identify and overcome barriers
- Consider the role of neurodivergence and mental health
- Foster the development of adaptive alternative behaviors
- Increase participation, inclusion, and academic success
- Maximize the impact of "team"
